Huntsville, AL 35807-4301**

**Phone: 256-895-7431**

**Website: [http://pdsc.usace.  
army.mil/](http://pdsc.usace.army.mil/)**

Ecological resources include fish and wildlife populations, habitats, and their relationships to each other and the environment/ecosystem. Emphasis is placed on describing and demonstrating cost-effective, state-of-the-art techniques and procedures for identifying, inventorying, assessing, evaluating, and displaying ecological resources information. Habitat assessment procedures and inventory techniques are described and demonstrated for birds, mammals, reptiles, amphibians, and fishes. Students receive hands-on training through field trips taken to both terrestrial and aquatic sites where they conduct selected animal inventories and habitat assessments.
